AO106 (Rev. 12/03) Affidavit for Search Warrant

UNITED STATES DISTRICT COURT

SOUTHERN

In the Matter of the Search of
(Name, address or brief description of person, property or premises to be searched)

GALLOWAY PHARMACY
2995 NATIONAL AVENUE
SAN DIEGO, CA

CLERK, U.S. DISTRICT COURT
SOUTHERN DISTRICT OF CALIFORNIA
APPLICATION AND AFFIDAVIT
FOR SEARCH WARRANT

DEPUTY
Case Number: '08 MJ 0696

I, Special Agent Gerald K. Cook being duly sworn depose and say:

I am a(n) Special Agent of the Federal Bureau of Investigation and have reason to believe
Official Title

that ☐ on the person of or ☒ on the property or premises known as (name, description and/or location)

See Attachment A.

in the SOUTHERN District of CALIFORNIA

there is now concealed a certain person or property, namely (describe the person or property to be seized)

See Attachment B.

which is (state one or more bases for search and seizure set forth under Rule 41(b) of the Federal Rules of Criminal Procedure)

Evidence of a crime and property used in committing a crime; contraband, fruits of a crime, and things criminally possessed;
and property designed or intended for use or which is or has been used as a means of committing a criminal offense.

concerning a violation of Title 21 / 18 United States code, Section(s) 841(a)(1), 843(b) and 846 / 1956

The facts to support a finding of probable cause are as follows:

See the attached Affidavit of Special Agent Gerald K. Cook

Continued on the attached sheet and made a part hereof:

ATTACHMENT A**DESCRIPTION OF PROPERTY TO BE SEARCHED**

The premises known as Galloway Pharmacy located at 2995 National Avenue San Diego, California, is a single story business located on the southwest corner of National Avenue and S. 30th Street. The premises at 2995 National Avenue has a stone exterior on the north and east sides of the building with a light green colored exterior on the south side of the business. "Galloway Pharmacy" signs are located at the top of the north and east sides of the business. The front entrance is located on the north side of the business in between two sets of windows. The rear entrance is located on the south side of the business with a concrete ramp leading up to the door. The words "Employee Entrance Only" are painted above the rear door on the south side of the business. An Image of the premises is provided below.

The search shall include all rooms, attics, crawl spaces, safes, briefcases, storage areas, containers, garages, sheds, carports, storage facilities and containers such as safes, vaults, file cabinets, drawers, luggage, briefcases, valises, boxes, jewelry boxes, cans, bags, purses, and trash cans.

ATTACHMENT B

ITEMS TO BE SEIZED

1. Records and documents relating to the purchase, dispensation, administration, prescription or distribution of controlled substances required to be maintained pursuant to Title 21, C.F.R., Section 1302 et seq.
2. Documents containing data reflecting or memorializing the ordering, possession, purchase, storage, distribution, transportation and sale of controlled substances, including buyer lists, seller lists, pay-owe sheets, records of sales, log books, drug ledgers, personal telephone/address books containing the names of purchasers and suppliers of controlled substances, electronic organizers, Rolodexes, telephone bills, telephone answering pads, bank and financial records, and storage records, such as storage locker receipts and safety deposit box rental records and key.
3. Prescriptions;
4. Patient information, files, records and ledgers reflecting any corresponding medical purpose for said prescriptions;
5. Documents containing data reflecting or memorializing prescriptions for controlled substances.
6. Documents containing data reflecting or memorializing billing to health care benefit programs, or payment for health care benefits received from, or associated with, health care benefit programs, including communications to, or received from, health care benefit programs.
7. Employee records including time sheets, employment history records, salary or wage records, and records or data memorializing access to the premises by employees or other persons.
8. Documents or other records memorializing communications between employees, customers suppliers or others persons associated with the operation or ownership of the premises.
9. Documents and articles of personal property reflecting the identity of persons occupying, possessing, residing in, owning, frequenting or controlling the premises to be searched or property therein, including keys, rental agreements and records, property acquisition records, utility bills and receipts, photographs, answering machine tape recordings, telephone, vehicle and/or vessel records, canceled mail envelopes, correspondence, financial documents such as tax returns, bank records, safety deposit box records, canceled checks, and other records of income and expenditure, credit card records, travel documents, personal identification documents and documents relating to obtaining false identification including birth certificates, drivers license, immigration cards and other forms of identification which the same would use other names and identities other than his or her own.
10. Photographs and video and audio recordings which document persons occupying, possessing, residing in, frequenting, or controlling the premises or which document an association with other coconspirators and/or which display narcotics, firearms, or money and proceeds from narcotics transactions.
11. Packages and contents that were delivered to the premises, or were about to be sent by the occupants.
12. Devices, supplies, equipment or items used in, or the product of, the re-packaging of pharmaceuticals, to include empty tablet containers, caps, seals, bottle labeling devices, seal presses, and pharmaceutical bottles bearing indications of tampering.

- 1 13. Shipping and receiving documents relating to the delivery of packages.
- 2 14. Banking and financial institution records, bank statements, credit card statements, canceled
3 checks, money orders, deposit slips, orders for or receipt of money transfer by wire, checking
4 and saving books, financial institution statements, safe deposit boxes, loan statements, tax
5 returns, business and personal ledgers, and accounting records.
- 6 15. Records relating to the lease of storage lockers, telephone/address directories and other papers
7 containing telephone numbers and addresses.
- 8 16. Records related to the purchase of real estate, vehicles, precious metals, jewelry and other
9 tangible assets.
- 10 17. Digital storage devices including: floppy disk, CD ROMS, DVD ROMS, magnetic tapes,
11 magnet optical cartridges, personal digital assistance, pagers, money chips, thumb drives, jump
12 drives, flash drives, portable hard drives and computers containing hard drives. All electronic
13 devices, such as computers, which include the central processing units, internal and external
14 devices, internal and external storage equipment or media, terminals or video display units,
15 together with peripheral equipment, such as keyboards, printers, modems, and programmable
16 telephone dialing devices, and operating system software, program software, applications
17 software, manuals for the software and hardware, electronic organizers, or personal digital
18 assistants and computer discs and CD's, cellular telephones and SIM cards. All seized
19 computers shall be returned to the defendants or the defendant's agent within 10 calendar days.
20 If agents need more time than 10 days to complete the mirror imaging, the Government will seek
21 from the Court an extension of time within which to return the applicable devices and/or
22 equipment.

AFFIDAVIT IN SUPPORT OF SEARCH WARRANT**UNITED STATES OF AMERICA****SOUTHERN DISTRICT OF CALIFORNIA****SS**

I, Gerald K. Cook, being duly sworn, hereby depose and say:

1. I make this affidavit in support of an application for a search warrant in furtherance of an investigation conducted by special agents of the United States Drug Enforcement Administration ("DEA") for the premises known as GALLOWAY PHARMACY, located at 2995 National Avenue, San Diego, California (hereafter sometimes referred to as "the target location"), which includes a detached structure associated with GALLOWAY PHARMACY located behind the pharmacy at 2984 Newton Avenue, San Diego, California. The target location is described further in Attachment A.

2. As discussed further, two pharmacy technicians employed at GALLOWAY PHARMACY -- Jose Jesus Peruch SAENZ and Jesus MACIAS -- have been indicted in Criminal Case No. 08CR0509-BEN and charged with conspiracy to distribute oxycodone^{1/} and hydrocodone bitartrate,^{2/} in violation of 21 U.S.C. §§ 846 and 841(a)(1), and distribution of oxycodone and hydrocodone bitartrate in violation of 21 U.S.C. § 841(a)(1). SAENZ was also indicted in Criminal Case No. 08CR0511-BEN, and charged with conspiracy to distribute oxycodone and hydrocodone in violation of 21 U.S.C. §§ 846 and 841(a)(1), and distribution of hydrocodone in violation 21 U.S.C. § 841(a)(1).

3. The purpose of the search warrant is to seize (1) property that constitutes evidence of the commission of controlled substances offenses under 21 U.S.C. §§ 841(a)(1), 843(b), and 846, and money laundering offenses under 18 U.S.C. § 1956, (2) contraband, fruits of crime or things otherwise criminally possessed, and (3) property designed or intended for use, or which is or has been used, as a means of committing a criminal offense.

^{1/} Oxycodone is a potent and potentially addictive opioid analgesic medication synthesized from thebaine. It is a Schedule II controlled substance both as a single agent and in combination with other products such as acetaminophen, ibuprofen, or aspirin.

^{2/} Hydrocodone is a narcotic which relieves pain by binding to opioid receptors in the brain and spinal cord. Pure hydrocodone, and forms containing more than 15 mg per dosage unit, are Schedule II controlled substances. Tablets consisting of less than 15 mg hydrocodone per dosage unit constitute hydrocodone bitartrate and are Schedule III controlled substances. For purposes of this affidavit, all references to "hydrocodone" refer to "hydrocodone bitartrate."

AFFIDAVIT IN SUPPORT OF SEARCH WARRANT

SAENZ was also indicted in Criminal Case No. 08CR0511-BEN, and charged with conspiracy to distribute oxycodone and hydrocodone in violation of 21 U.S.C. §§ 846 and 841(a)(1), and distribution of hydrocodone in violation 21 U.S.C. § 841(a)(1).

3. The purpose of the search warrant is to seize (1) property that constitutes evidence of the commission of controlled substances offenses under 21 U.S.C. §§ 841(a)(1), 843(b), and 846, and money laundering offenses under 18 U.S.C. § 1956, (2) contraband, fruits of crime or things otherwise criminally possessed, and (3) property designed or intended for use, or which is or has been used, as a means of committing a criminal offense.

^{1/} Oxycodone is a potent and potentially addictive opioid analgesic medication synthesized from thebaine. It is a Schedule II controlled substance both as a single agent and in combination with other products such as acetaminophen, ibuprofen, or aspirin.

^{2/} Hydrocodone is a narcotic which relieves pain by binding to opioid receptors in the brain and spinal cord. Pure hydrocodone, and forms containing more than 15 mg per dosage unit, are Schedule II controlled substances. Tablets consisting of less than 15 mg hydrocodone per dosage unit constitute hydrocodone bitartrate and are Schedule III controlled substances. For purposes of this affidavit, all references to "hydrocodone" refer to "hydrocodone bitartrate."

1 4. The information contained in this affidavit is based on my personal experience and
2 training, consultation with other special agents of the FBI, the Drug Enforcement Administration
3 ("DEA"), the Criminal Investigation Division of the Internal Revenue Service ("IRS"), officers of the
4 San Diego Police Department ("SDPD") and other law enforcement officers. The evidence and
5 information contained herein was developed from a review of intercepted wire and electronic
6 communications pursuant to prior district court authorization, interviews with sources of information,
7 financial documents secured by grand jury subpoena, surveillance records, vehicle records from the
8 California Department of Motor Vehicles ("DMV"), and public records.

9 **EXPERIENCE AND TRAINING**

10 5. I have been employed as a Special Agent with the FBI for over six years. I am currently
11 assigned to the San Diego Field Division working as a member of the San Diego Organized Crime
12 Squad. I have received 16 weeks of training at the FBI Academy in Quantico, Virginia. During the
13 training, I learned how controlled substances are manufactured, consumed, packaged, marketed, and
14 distributed. I have interviewed and operated informants, executed search warrants, arrested and
15 interviewed subjects, conducted physical surveillance, utilized electronic and video surveillance. I have
16 also worked with and consulted numerous agents and law enforcement officers who have investigated
17 drug trafficking.

18 6. In the course of my law enforcement experience, I have participated in investigations of
19 crimes involving the importation and illegal distribution of controlled substances and money laundering.
20 I have arrested and participated in the arrests of numerous individuals for various controlled substance
21 violations. I have participated in the execution of search warrants relating to illegal drug offenses. I
22 have received training in the methods used by drug traffickers to import and distribute controlled
23 substances and launder drug proceeds to promote the drug trafficking activity and conceal or disguise
24 the nature, source, and ownership of the drug proceeds. I have conducted and participated in numerous
25 investigations involving surveillance of individuals associated with drug trafficking. I have conducted
26 and participated in numerous interviews of individuals involved with drug trafficking.

1 7. Based upon my experience and training, consultation with other law enforcement officers
2 experienced in controlled substances, health care fraud, and financial investigations, and all the facts
3 and opinions set forth in this affidavit, I know that:

4 a. The target location, GALLOWAY PHARMACY, is a "controlled premises"
5 within the meaning of 21 U.S.C. §§ 880(a) and 21 C.F.R. § 1316(c). Pursuant to its registration, the
6 pharmacy is authorized to handle controlled substances in Schedules II, IIN, III, IIN, IV and V. The
7 pharmacy is required to keep complete and accurate records of all controlled substances received, sold,
8 delivered, or otherwise disposed of pursuant to 21 U.S.C. §§ 827, and 21 C.F.R. § 1304.01 et seq., on
9 the controlled premises.

10 b. Based on prior searches I believe I will find articles of personal property
11 evidencing the identity of persons occupying, possessing, owning, frequenting or controlling the
12 premises or property therein.

13 c. Pharmacies often use computers for the storage of business records and for
14 communication between employees, customers and suppliers, by means of electronic mail ("e-mail").
15 Moreover, I know that digital evidence can be stored on a variety of systems and storage devices
16 including: hard disk drives, floppy disk, CD ROMS, DVD ROMS, magnetic tapes, magneto optical
17 cartridges, personal digital assistance, pagers, money chips, thumb drives, flash drives, and portable hard
18 drives. Therefore, I am requesting permission to seize computers, including printers, monitors,
19 keyboards, scanners, and all forms of media storage that may be found on the premises.

20 d. Persons involved in illegal drug distribution often forge prescriptions and/or
21 manipulate computer information and records in order to conceal the distribution of controlled
22 substances.

23 8. It is my opinion and belief that the seizure of such records will provide evidence of the
24 events set forth in this affidavit and that such records can be found at the target location despite any
25 lapse of the time between the events described and the anticipated search pursuant to this warrant.

9. This investigation has focused on criminal activities occurring at three pharmacies located in San Diego (collectively referred to as "the three pharmacies"): (1) GALLOWAY PHARMACY (the target location), (2) PARK BOULEVARD PHARMACY, and (3) WHITE CROSS DRUG STORE. The three pharmacies are owned and operated by Fadi ATIYA, Ramsey ATIYA, and Akram ATIYA. Fadi ATIYA is the owner, president and Pharmacist-in-Charge of GALLOWAY PHARMACY. Fadi ATIYA is also the vice president of PARK BOULEVARD PHARMACY and president of WHITE CROSS PHARMACY. Ramsey ATIYA is the secretary for both PARK BOULEVARD PHARMACY and WHITE CROSS DRUG STORE. Akram ATIYA, is listed as president of PARK BOULEVARD PHARMACY and Vice President for WHITE CROSS DRUG STORE. Given the common ownership and management of the three pharmacies, it is unclear whether some of the records for one pharmacy may be found at another pharmacy. The investigation has revealed that the illegal diversion and distribution of controlled substances from the three pharmacies has been substantial and has continued for years. Consequently, there will be historical records relevant to the diversion and distribution of controlled substances from the three pharmacies found at the target location as well as evidence relevant to money laundering.

OVERVIEW OF THE TARGET SUBJECTS

10. The following is a brief description of Ahmad H. HNAINO, Youssef HABHAB, Jose Jesus Peruch SAENZ, Jesus MACIAS, and Karl MURRAH, the target subjects whose drug trafficking activities provide probable cause for the search warrants on the three pharmacies.

a. **Jose Jesus Peruch SAENZ** (hereafter "SAENZ") is a pharmacy technician at GALLOWAY PHARMACY who is in charge of ordering pharmaceuticals. On February 22, 2008, SAENZ was indicted in two separate cases, Criminal Case No. 08CR0509-BEN and Criminal Case No. 08CR0511-BEN, and charged with conspiracy to distribute oxycodone and hydrocodone in violation of 21 U.S.C. §§ 846 and 841(a)(1), and multiple counts of distribution of oxycodone and hydrocodone in violation 21 U.S.C. § 841(a)(1).

1 b. **Jesus MACIAS**, aka "Jessie" (hereafter "JESUS")) is a pharmacy technician at
 2 Galloway Pharmacy. JESUS used his position as a pharmacy technician to obtain and sell distributable
 3 quantities of oxycodone and hydrocodone. JESUS distributed oxycodone and hydrocodone to his
 4 brother JUAN and others for further distribution. On February 22, 2008, JESUS and JUAN were
 5 indicted in Criminal Case No. 08CR0509-BEN and charged with conspiracy to distribute oxycodone
 6 and hydrocodone in violation of 21 U.S.C. §§ 846 and 841(a)(1), and multiple counts of distribution of
 7 oxycodone and hydrocodone in violation 21 U.S.C. § 841(a)(1).

8 c. **Ahmad H. HNAINO** (hereinafter "HNAINO") is the current Pharmacist-in-
 9 Charge at WHITE CROSS DRUG STORE. Prior to November of 2007, HNAINO was the Pharmacist-
 10 in-Charge at PARK BOULEVARD PHARMACY. HNAINO is the brother-in-law of Youssef
 11 HABHAB.

12 d. **Youssef Mustapha HABHAB** (hereinafter "HABHAB") distributed large
 13 quantities of hydrocodone while employed at PARK BOULEVARD PHARMACY. HABHAB
 14 indicted in Criminal Case No. 08CR0404-BEN and charged with distribution of hydrocodone in
 15 violation 21 U.S.C. § 841(a)(1).

16 e. **Karl DeLeon MURRAH** (hereafter "MURRAH") received large quantities of
 17 pharmaceuticals from SAENZ from at least February 2007 through August 2007 and then sold the
 18 pharmaceuticals to other individuals for further distribution. MURRAH is charged with six others in
 19 Criminal Case No. 08CR0511-BEN with conspiracy to distribute oxycodone and hydrocodone in
 20 violation of 21 U.S.C. §§ 846 and 841(a)(1), and distribution of hydrocodone in violation 21 U.S.C. §
 21 841(a)(1). MURRAH is also charged with conspiracy to distribute cocaine in violation of 21 U.S.C.
 22 §§ 846 and 841(a)(1) and with distribution of MDMA (Ecstasy), and distribution of cocaine in violation
 23 of 21 U.S.C. § 841(a)(1).

24 **FACTS ESTABLISHING PROBABLE CAUSE**

25 **Diversion from GALLOWAY PHARMACY by SAENZ**

26 11. In late 2003, an investigation was initiated into MURRAH's drug trafficking activities.
 27 An undercover DEA agent ("UC") purchased approximately 250 ecstasy pills from MURRAH during
 28 2003.

1 12. On December 7, 2006, the UC met with MURRAH in National City, California and
2 asked MURRAH whether he was still moving "X" [ecstasy]. MURRAH stated that he moved to "meds"
3 [pharmaceuticals] such as "OxyContin" [a brand name for oxycodone] and "Vicodin" [a brand name
4 for hydrocodone]. MURRAH said that you can move a lot of "meds" because the demand was there.
5 MURRAH also said that there was lots of money in that area of business.

6 13. On January 4, 2007, the UC met with MURRAH at a local restaurant in San
7 Diego. MURRAH confirmed that he was currently involved in the distribution of pharmaceuticals such
8 as OxyContin and Vicodin. MURRAH said that he made a lot of money selling pharmaceuticals by
9 transporting large amounts of it to the East Coast. MURRAH indicated that there was a low supply of
10 OxyContin and that Vicodin was currently in high demand. MURRAH told the UC that the UC should
11 begin to do his business by doing his homework and starting a line of clients. MURRAH said that a
12 good client base could be found on the local college campuses.

13 14. On February 1, 2007, agents initiated a Federal Title III wire tap investigation of Karl
14 MURRAH. In 2007, agents initiated a Title III investigation of MURRAH. On February 22, 2007, wire
15 interceptions indicated that MURRAH planned to meet with his source of supply and receive
16 pharmaceuticals. Agents were able to observe the meeting between MURRAH and his source of supply
17 -- who was subsequently identified as SAENZ. During this meeting agents observed SAENZ transfer
18 a box into the trunk of MURRAH's vehicle.

19 15. On March 8, 2007, undercover agents purchased four bottles of hydrocodone, each
20 containing 500 tablets, from MURRAH. During this transaction, MURRAH produced a sealed box,
21 similar to the box from the February 22, 2007 transaction. MURRAH opened the sealed box, which
22 contained several bottles of hydrocodone tablets, and gave four of the bottles to the undercover agents.
23 The pharmaceuticals obtained by the undercover agents from MURRAH were in their original
24 commercial bottles with seals and labels intact.

25 16. On March 19, 2007, agents conducted a trash search of MURRAH's residence, 897
26 Yosemite Dr, Chula Vista, California. Among the evidence obtained from the trash at MURRAH's
27 residence, agents found two empty boxes similar to the boxes previously mentioned from February 22,
28 2007, and March 19, 2007, and an empty commercial hydrocodone bottle of the same type, and from

1 the same manufacturer (500 count bottle, Watson brand Hydrocodone Bitartrate and Acetaminophen),
2 purchased by the undercover agents on March 8, 2007.

3 17. Also on March 19, 2007, agents conducted a trash search of SAENZ's residence, 2825
4 Red Rock Canyon Drive, Chula Vista, California. Among the evidence obtained from the trash at
5 SAENZ's residence, agents found three empty commercial hydrocodone bottles (one bearing a
6 GALLOWAY PHARMACY inventory sticker) of the same type, and from the same manufacturer (500
7 count bottle, Watson brand Hydrocodone Bitartrate and Acetaminophen), purchased by the undercover
8 agents on March 8, 2007.

9 18. On June 20, 2007, agents observed SAENZ, in the GALLOWAY PHARMACY
10 employee parking lot, place a box [similar to the boxes mentioned above from February 22, 2007, March
11 8, 2007, and March 19, 2007] into the trunk of his vehicle. Agents followed SAENZ and the vehicle
12 he placed the box into and observed SAENZ drive from GALLOWAY PHARMACY to his residence.

13 19. Based upon these intercepted calls and text messages, agents believe that, from
14 February 2007 to approximately August 2007, SAENZ distributed at least 90,000 hydrocodone tablets
15 and at least 400 oxycodone tablets to MURRAH for further distribution.

16 **Diversion from GALLOWAY PHARMACY by Jesus MACIAS**

17 20. During approximately May of 2007, a confidential source of information (CI-1)^{3/} met
18 Juan Ernesto MACIAS, Jr. (hereafter "JUAN") – Jesus MACIAS' brother – while playing poker at a
19 friend's house San Diego, California. During their conversation, JUAN told CI-1 that he could supply
20 CI-1 with bottles containing 500 hydrocodone tablets. CI-1 then asked JUAN how much it would cost
21
22

23
24 ^{3/} CI-1 pled guilty to felony drug charges in state court and is awaiting sentencing. On
25 April 17, 2007, CI-1 entered into a Cooperation Agreement with the FBI and the San Diego District
26 Attorney's Office. Pursuant to the agreement, CI-1 agreed to plead guilty to felony charges in state
27 court and assist law enforcement in return for a possible reduction in sentencing. On November 26,
28 2007, the San Diego District Attorney's Office concluded the Cooperation Agreement by telling CI-1
that CI-1 will not receive any further punishment for his/her state felony charges as a result of the
cooperation the CI had provided thus far. CI-1 then entered into a second Cooperation Agreement with
the FBI and the San Diego District Attorney's Office. Pursuant to the second Cooperation Agreement,
CI-1 agreed to continue to assist law enforcement in return for a reduction of his/her felony state charges
to a misdemeanor. As of December 5, 2007, CI-1 has been reimbursed \$2,100 by the FBI for his/her
expenses. The information provided by CI-1 has been corroborated and has proven to be reliable.

1 per bottle. JUAN responded \$700 per bottle. The two then exchanged telephone numbers. CI-1 told
2 JUAN to call CI-1 when JUAN wanted to "do business."

3 21. On July 14, 2007, agents intercepted a text message from SAENZ to JESUS that said:
4 "HEY . . . IT NEVER CAME IN . . . WHO DID YOU ORDER IT FROM?" Agents believe that, in
5 this text message, SAENZ told JESUS that an order of pharmaceuticals (previously ordered by JESUS)
6 did not arrive at Galloway Pharmacy and that SAENZ wanted to check on the status of the order.

7 22. On July 18, 2007, agents intercepted a text message from JESUS to SAENZ. In the
8 text message, JESUS asked: "HEY WHAT'S UP WITH THE YELLOWS [hydrocodone tablets]? DID
9 THEY COME IN?"

10 23. On July 20, 2007, JUAN called CI-1 and said that he was ready to "do business." JUAN
11 then clarified that he had "those yellow [hydrocodone] pills." CI-1 met with JUAN at Fashion Valley
12 Mall in San Diego, California and JUAN showed CI-1 a bottle containing hydrocodone and another
13 bottle containing 80 milligram tablets of OxyContin (a brand of oxycodone). JUAN told CI-1 that he
14 wanted \$2,500 per bottle of OxyContin. JUAN also told CI-1 that he wanted \$700 per bottle of
15 hydrocodone if the bottle belonged to him, and \$1,000 if the belonged to his brother. JUAN told CI-1
16 that his brother (JESUS) worked at a pharmacy in San Diego, California.

17 24. On July 25, 2007, agents intercepted a text message from JESUS to SAENZ. In the
18 text message, JESUS asked: "HEY ARE YOU ABLE TO ORDER ME 4 BOTTLES OF THE YELLOW
19 [hydrocodone tablets]? THROUGH VALLEY? I'M NOT WORKING FRIDAY OR SAT. THAT IS
20 WHY." [Agents believe that "VALLEY" refers to Valley Wholesale Drug Co., Inc., a pharmaceutical
21 distributor. Telephone toll records for the GALLOWAY PHARMACY phone number indicate multiple
22 contacts between GALLOWAY PHARMACY and Valley Wholesale Drug Co., Inc., between July 24
23 and July 27, 2007].

24 25. On July 27, 2007, JUAN sold two bottles of oxycodone (each bottle containing 100
25 tablets of 80 mg of oxycodone tablets) and two bottles hydrocodone (each bottle containing 500 tablets)
26 to the CI for \$5,000. JUAN also provided CI-1 with a small bottle that contained 18 hydrocodone
27 tablets. After the controlled purchase was completed, agents observed JUAN meet with JESUS.
28

1 26. On September 26, 2007, CI-1 met with JESUS and JUAN at the Oceanaire Restaurant
2 in the Gas Lamp District of San Diego to discuss future pharmaceutical transactions. JESUS said he
3 could provide CI-1 with two to four boxes of hydrocodone every couple of weeks and said that he would
4 do his best to obtain oxycodone.

5 27. On September 29, 2007, JESUS sold two bottles of oxycodone (each bottle containing
6 100 80 mg tablets) and eight bottles of hydrocodone (each bottle containing 500 10mg tablets) to CI-1.

7 28. On October 6, 2007, monitors intercepted a series of calls from ISABEL QUISTIAN,
8 III ("QUISTIAN") to JESUS which indicated that JESUS planned to distribute pharmaceuticals to
9 QUISTIAN. During the call, QUISTIAN asked JESUS, "What's the dealio?" JESUS later responded,
10 "One or two." QUISTIAN further inquired, "One or two of the 80's [one or two bottles containing 80
11 mg tablets of oxycodone]?" JESUS responded, "Yes."

12 29. On October 7, 2007, at approximately 11:30 a.m., agents conducted surveillance at the
13 target location when they observed QUISTIAN's black GMC sport utility vehicle arrive at the residence.
14 Approximately 18 minutes later, QUISTIAN's vehicle was observed leaving the vicinity of JESUS and
15 JUAN's residence. Surveillance of the vehicle was maintained until a SDPD unit conducted a traffic
16 stop of QUISTIAN's vehicle for failing to signal while turning. During an inventory search of the
17 vehicle, officers found three bottles of oxycodone (each containing 100 80mg tablets), two regular-sized
18 bottles of hydrocodone (each containing 500 5mg tablets), and two large bottles of hydrocodone (each
19 containing 1,000 10mg tablets).

20 30. On October 12, 2007, JESUS sold four bottles of oxycodone (each containing 100 80
21 mg tablets) and four bottles of hydrocodone (each containing 500 10 mg tablets) to CI-1 for \$14,000.

22 31. On October 13, 2007, monitors intercepted a call between JESUS and JUAN. During
23 the call, JESUS told JUAN, "Bring all that stuff [from the garage] in[side the house]. The paperwork
24 and then my yellows [bottles of hydrocodone], put them in my closet" Later in the conversation,
25 JESUS told JUAN, "Yeah, and I got you uh 3,000 yellows [hydrocodone], 1,000 of the white Vicodins
26 five by five hundred [hydrocodone] and one 80 [one bottle of 80 mg oxycodone]."

1 32. On December 3, 2007, JESUS sold three bottles of oxycodone (each containing 100
2 80 mg tablets) to CI-1 for \$7,500. The controlled purchase took place at the target location and both
3 JESUS and JUAN were present during the deal.

4 33. On January 23, 2008, JESUS sold two bottles of oxycodone (each containing 100 80
5 mg tablets) to CI-1 for \$5,000. The controlled purchase took place at the target location and both
6 JESUS and JUAN were present during the deal. During the deal, CI-1 inquired how JESUS could
7 obtain the pharmaceuticals. The CI asked whether JESUS had a "hook up" [with the wholesalers].
8 JESUS responded "somewhat." JESUS stated that they just "over-order." The CI asked what happens
9 if someone looked over the orders. JESUS replied, "if they do I'm fucked." JESUS further explained
10 that they only go over the orders when the orders are massive. JESUS said that if "the company"
11 [believed to refer to the wholesaler] noticed a big change in the ordering pattern then they will send an
12 e-mail to Fadi Atiya asking what is happening. That is why JESUS can order "one a week."

13 34. On January 26, 2008, monitors intercepted a call between JESUS and JUAN regarding
14 bottles of oxycodone that were stored at the target location. During the call, JESUS told JUAN, "I left
15 two eighties [two bottles containing 80 mg tablets of oxycodone] right there in my room, in the Gucci
16 shoe box." JUAN then asked, "How many?" JESUS then confirmed, "Two . . ." Jesus then stated, "I'll
17 probably get on more today."

18 **Diversion from PARK BOULEVARD PHARMACY by HABHAB**

19 35. On May 31, 2007, CI-1 called HABHAB and invited him to a barbecue. While at the
20 barbecue, HABHAB asked CI-1 whether he/she needed any "yellows" [hydrocodone tablets]. CI-1
21 confirmed that he/she did want to purchase bottles of yellows. HABHAB handed eight yellow
22 hydrocodone tablets to CI-1 as a personal gift until the bottles were available.

23 36. On June 11, 2007 at approximately 5:42 p.m., CI-1 called HABHAB and left a
24 message to call back. At approximately 7:33 p.m., HABHAB returned CI-1's call and the two made
25 arrangements to meet. At approximately 7:44 p.m., CI-1 met with HABHAB and purchased three
26 bottles of hydrocodone (a total of 1,500 tablets) for \$4,500.

1 37. On June 12, 2007, CI-1 called HABHAB and asked if HABHAB had "three yellers"
2 [three bottles of hydrocodone tablets]. HABHAB acknowledged and then told CI-1 that he would call
3 CI-1 later. CI-1 and HABHAB then arranged to purchase the drugs the next day.

4 38. On June 13, 2007, CI-1 purchased three bottles of hydrocodone tablets from HABHAB
5 for \$4,500.

6 39. On July 17, 2007, CI-1 made a recorded call to HABHAB. HABHAB asked CI-1
7 if he/she wanted to purchase any regular "t-shirts" [bottles of hydrocodone tablets]. CI-1 told HABHAB
8 that he/she had "cheddar" [money] to purchase "the other t-shirts" [OxyContin]. HABHAB told CI-1
9 that he would see what he could do.

10 40. On June 20, 2007, CI-1 purchased five bottles of hydrocodone tablets from HABHAB
11 for \$7,200.

12 **Diversion from WHITE CROSS DRUG STORE by HNAINO**

13 41. On February 25, 2008, a confidential source of information ("CI-2")^{4/} advised special
14 agents of the FBI that HNAINO has illegally distributed large quantities of distribute oxycodone and
15 hydrocodone bitartrate to a customer since at least September 2007. HNAINO is the
16 Pharmacist-in-Charge at White Cross Drug Store in San Diego, California and is licensed to distribute
17 pharmaceuticals to individuals who have a valid medical prescription.

18 42. CI-2 further advised agents that CI-2 does not have a license to distribute
19 pharmaceuticals and has delivered the oxycodone and hydrocodone bitartrate to the customer on
20 HNAINO's behalf, and obtained money from the customer for prior drug deliveries which was delivered
21 by CI-2 to HNAINO. CI-2 advised agents that CI-2 had made deliveries of hydrocodone obtained from
22 HNAINO to the customer on approximately a monthly basis since on or about September of 2007. The
23 customer's usual order consisted of six bottles of 10 mg hydrocodone (500 tablets per bottle), and six
24 bottles of 5 mg hydrocodone (500 tablets per bottle). During that same period, on approximately four
25 or five occasions, CI-2 delivered oxycodone obtained from HNAINO to the customer along with the
26
27

28 ^{4/} CI-2 has been arrested but has no known criminal convictions. The information
provided by CI-2 has been corroborated and has proven to be reliable.

1 hydrocodone. The customer's usual order of oxycodone consisted of five bottles of 80 mg oxycodone
2 (100 tablets per bottle).

3 43. On February 26, 2008, CI-2 called HNAINO and told him that the customer wanted
4 more oxycodone and hydrocodone bitartrate. CI-2 further advised HNAINO that the customer had the
5 \$15,000 the customer owed HNAINO for previous drug purchases. HNAINO agreed to obtain the drugs
6 and advised the CI that HNAINO would call later that day or the next day.

7 44. On February 28, 2008, CI-2 called HNAINO regarding the status of the order.
8 HNAINO advised CI-2 that he could provide the bottles of hydrocodone tablets to CI-2 that day but
9 would not be able to get the oxycodone tablets to CI-2 until the next day. CI-2 and HNAINO agreed
10 that the CI would take delivery of the drugs on February 29, 2008. CI-2 would then deliver the drugs
11 to the customer and obtain the \$15,000 owed by the customer to HNAINO, which CI-2 would then
12 deliver to HNAINO.

13 45. On February 29, 2008, CI-2 met with the defendant in a parking lot located at 8730
14 Rio San Diego Drive, San Diego, California. HNAINO removed two plastic bags with the name "Good
15 Neighbor Pharmacy" from his vehicle and handed them to CI-2 who placed the bags in the back of CI-
16 s's vehicle. FBI Special Agents recovered the bags that were placed into CI-2's vehicle and determined
17 that each bag contained six sealed bottles of Watson brand hydrocodone bitartrate tablets, with 500
18 tablets per bottle – a total of 6,000 tablets of hydrocodone bitartrate. Agents also found a white paper
19 bag (also bearing the name "Good Neighbor Pharmacy") that contained four sealed bottles of Purdue
20 Pharma brand 80 mg oxycodone tablets, with 100 tablets per bottle, and one bottle of Purdue Pharma
21 brand 80 mg oxycodone tablets with the seal broken, which contained 77 tablets.

22 46. Approximately two hours after HNAINO distributed the drugs, HNAINO met with
23 CI-2 near a coffee shop in La Jolla, California. HNAINO got into CI-2's vehicle and CI-2 handed a
24 white envelope that contained \$15,000 in United States currency to HNAINO. HNAINO then got out
25 of CI-2's vehicle carrying the white envelope with the \$15,000 which HNAINO placed in his green
26 Saab.

1 **Pharmaceutical Purchase and Distribution Data for the three pharmacies**

2 47. The Automation of Reports and Consolidated Orders System ("ARCOS") is a
3 computer system that enables the Government to maintain a current and historical record of selected
4 controlled substance inventories from the point of manufacture to the point of sale, distribution, or other
5 disposition, and finally to the dispensing (consumption) level. The Controlled Substance Utilization
6 Review and Evaluation System ("CURES") is computer system that monitors the number of
7 prescriptions in California. DEA Diversion Investigators compare ARCOS records (related to the
8 amounts of controlled substances purchased by a pharmacy) with CURES records (related to the number
9 of legitimate prescriptions submitted to a pharmacy) to determine whether there was a meaningful
10 discrepancy. The discrepancy between purchase and prescription records may be explained (at least in
11 part) by the diversion of controlled substances by individuals inside the pharmacy.

12 • **GALLOWAY PHARMACY**

13 48. Based on a review of ARCOS reports, GALLOWAY PHARMACY was the 11th
14 largest purchaser of hydrocodone in the State of California in 2006 at 1,422,400 dosage units and the
15 33rd largest purchaser in 2007 at 884,800 dosage units. ARCOS reports indicate that there was a
16 dramatic increase in the amount of hydrocodone purchased by GALLOWAY PHARMACY over the
17 past five years. GALLOWAY PHARMACY purchased 308,100 dosage units of hydrocodone in 2003;
18 345,760 dosage units in 2004, and 766,600 dosage units in 2005.

19 49 ARCOS reports indicate that, between July 1, 2007, and October 1, 2007,
20 GALLOWAY PHARMACY purchased 193,600 hydrocodone tablets and 7,000 OxyContin tablets.
21 CURES indicates that, between July 1, 2007 and October 1, 2007, GALLOWAY PHARMACY filled
22 prescriptions totaling 54,907 hydrocodone tablets and 4,688 OxyContin tablets. Consequently, during
23 the time period evaluated, approximately 72% of the hydrocodone tablets and 33% of the OxyContin
24 tablets purchased by GALLOWAY PHARMACY cannot be accounted for by the prescriptions filled
25 by the pharmacy. This comparison does not account for what would expected to be relatively small
26 differences in the amounts of hydrocodone and Oxycontin on the shelves at GALLOWAY
27 PHARMACY on July 1, 2007, versus October 1, 2007. The large discrepancy between the amounts of
28 hydrocodone and OxyContin purchased by GALLOWAY PHARMACY during the time frame

1 evaluated is consistent with the information provided above indicating that large amounts of controlled
2 substances are being diverted from the pharmacy.

3 ● **PARK BOULEVARD PHARMACY**

4 50. ARCOS reports indicate that between September 1, 2007, and December 31, 2007,
5 PARK BOULEVARD PHARMACY purchased a total of 89,200 hydrocodone tablets and 5,000
6 OxyContin tablets (80 mg oxycodone tablets). CURES indicates that, between September 1, 2007 and
7 December 31, 2007, PARK BOULEVARD PHARMACY filled prescriptions for a total of 41,987
8 hydrocodone tablets and 1,560 OxyContin tablets. The data above indicate that over the time period
9 evaluated, approximately 53% of the hydrocodone tablets and 69% of the OxyContin tablets purchased
10 by PARK BOULEVARD PHARMACY cannot be accounted for by the prescriptions filled by the
11 pharmacy. This comparison does not account for what would expected to be relatively small differences
12 in the amounts of hydrocodone and OxyContin on the shelves at PARK BOULEVARD PHARMACY
13 on September 1, 2007, versus December 1, 2007. The large discrepancy between the amounts of
14 hydrocodone and Oxycontin purchased by PARK BOULEVARD PHARMACY during the time frame
15 evaluated is consistent with the information provided above indicating that large amounts of controlled
16 substances are being diverted from PARK BOULEVARD PHARMACY.

17 ● **WHITE CROSS DRUG STORE**

18 51. The ARCOS reports indicate that, between September 1, 2007 and December 31, 2007,
19 WHITE CROSS DRUG STORE purchased a total of 167,300 hydrocodone tablets and 7,400 OxyContin
20 tablets (80 mg oxycodone tablets). CURES indicates that, between September 1, 2007 and December
21 31, 2007, WHITE CROSS DRUG STORE filled prescriptions for a total of 31,245 hydrocodone tablets
22 and 2,795 OxyContin tablets. The data above indicate that over the time period evaluated,
23 approximately 81% of the hydrocodone tablets and 62% of the Oxycontin tablets purchased by WHITE
24 CROSS DRUG STORE cannot be accounted for by the prescriptions filled by the pharmacy. This
25 comparison does not account for what would expected to be relatively small differences in the amounts
26 of hydrocodone and OxyContin on the shelves at WHITE CROSS DRUG STORE on September 1,
27 2007, versus December 1, 2007. The large discrepancy between the amounts of hydrocodone and
28 Oxycontin purchased by WHITE CROSS DRUG STORE during the time frame evaluated is consistent

1 with the information provided above indicating that large amounts of controlled substances are being
2 diverted from WHITE CROSS DRUG STORE.

3 52. The ARCOS data for the three pharmacies is based on information provided by
4 pharmaceutical distributors. The CURES data reported above is based on information provided by the
5 three pharmacies themselves. As noted above, comparisons of ARCOS and CURES data with regard
6 to a given pharmacy cannot be considered a substitute for a complete audit of actual pharmacy records
7 regarding the purchase and dispensation of controlled substances. Pursuant to the execution of the
8 search warrant at the target location, duly authorized Diversion Investigators of the DEA will be present
9 to conduct an audit to establish a full and complete accountability for all regulated equipment and all
10 controlled substances received, compounded, dispensed, and disposed of by the registrant pharmacy.

11 **Connection of Detached Structure at 2984 Newton Ave. to GALLOWAY PHARMACY**

12 53. On January 26, 2008, at approximately 10:00 a.m., agents established surveillance in
13 the area of GALLOWAY PHARMACY. At approximately 10:22 a.m., agents observed an unidentified
14 Hispanic male, hereafter "UM1", exit the front entrance of 2984 Newton Avenue. UM1 wore a
15 button-up, collared shirt with a GALLOWAY PHARMACY patch and a "Ted" name patch on the shirt.
16 UM1 was carrying a maroon colored crate with numerous small bags inside the crate. UM1 placed the
17 crate into the passenger side of a red colored pick-up. UM1 entered the driver's side of the red Ford and
18 departed the area.

19 54. At approximately 12:03 p.m., agents observed a white Toyota pick-up bearing
20 California license plate number 7G20744 (registered to Galloway Inc. or Scott A. Tyree at 2995
21 National Ave, San Diego, CA) arrive and park at the 2984 Newton address. A GALLOWAY
22 PHARMACY sign was seen attached to the rear window of the white Toyota pick-up. Agents observed
23 an unidentified Hispanic male, hereafter "UM2", wearing a black T-shirt. UM2 exited the white Toyota
24 carrying a maroon colored crate similar to the one UM1 carried. UM1 entered the front entrance of
25 2984 Newton Ave.

1 55. At approximately 12:11 p.m., agents observed UM1 driving the maroon Ford, arrive
2 at 2984 Newton. UM1 exited the maroon Ford carrying a maroon colored crate and entered 2984
3 Newton.

4 56. At approximately 12:19 p.m., agents observed an unidentified male hereafter "UM3"
5 wearing a red sweater and blue hat, enter the front door of 2984 Newton carrying a gray colored crate
6 similar to the maroon crates previously mentioned.

7 57. At approximately 12:25 p.m. agents observed UM2 and an unidentified female wearing
8 maroon "scrubs" exit the rear entrance of 2984 Newton. Agents have previously observed several
9 GALLOWAY PHARMACY employees, including SAENZ and MACIAS, wearing maroon colored
10 scrubs.

11 58. On February 8, 2008, agents obtained San Diego Gas and Electric (SDG&E) records
12 pertaining to the 2984 Newton Avenue address. The records indicated that GALLOWAY PHARMACY
13 maintains the SDGE account for the 2984 Newton Avenue address.

14 **SEARCH PROTOCOL FOR COMPUTERS**

15 59. This section describes the procedures that will be employed during this search to
16 minimize the intrusion represented by the search of any electronic data found at the target location.

17 60. Searching agents will be asked to use an incremental approach in searching for relevant
18 electronic material. If the agents are able to examine relevant portions of computer drives to identify
19 responsive material within a reasonable time period on-site, then the agents will attempt to create
20 forensic images of computers or laptops seized. However, if the agents cannot perform the search within
21 a reasonable period on-site, will they employ alternate procedures to complete the review off-site. In
22 that case, the computer expert will create forensic images of electronic data sources as necessary to
23 complete the search off-site.

24 61. A forensic image is an exact physical copy of a computer hard drive or other similar
25 electronic storage media. A forensic image thus captures all of the data on the hard drive (or other
26 media) without the data being viewed and without changing the data in any way. There are many
27 reasons why it is not feasible to conduct a forensic analysis of data on-site. First, analysis of the data
28 following the creation of the forensic image is a highly technical process that requires specific expertise,

1 equipment and software. Second, there are literally thousands of different hardware items and software
2 programs that can be commercially purchased, installed and custom-configured on a user's computer
3 system. Third, it is only after a thorough examination and analysis, that a trained computer forensic
4 examiner can determine whether he needs to obtain specialized hardware or software (not to mention
5 specialized training on the specialized software) in order to view and analyze the data contained in
6 electronic form.

7 62. The analysis of data on a computer may also be an extremely tedious and time
8 consuming process. In addition, to requiring special technical skills, equipment and software, it may
9 take days to properly search a single hard drive for specific data. With current technology, each search
10 "hit" must be reviewed in its context by an agent to determine whether the data is within the scope of
11 the warrant. In other words, merely finding a good "hit" does not end the review process.

12 63. Analyzing data on-site has become increasingly impossible as the volume of data stored
13 on a typical computer system has increased. For example, a single gigabyte of storage space (i.e., 1,000
14 megabytes) is the equivalent of 500,000 double-spaced pages of text. Computer hard drives capable of
15 storing 100s of gigabytes of data are becoming quite common in newer desktop computers.

16 64. In addition to the sheer volume, the data may be stored in a variety of formats or
17 encrypted. The volume of data of course extends the time that it takes to analyze the image in a
18 laboratory. Running keyword searches takes longer and results in more hits that must be individually
19 examined for relevance. Moreover, certain file formats do not lend themselves to keyword searches
20 (e.g., many common electronic mail, database and spreadsheet applications do not store data as
21 searchable text).

22 65. Based on the foregoing, searching any computer or forensic image for the information
23 subject to seizure pursuant to this warrant may require a range of data analysis techniques and may
24 require off-site analysis.

25 66. Nevertheless, all forensic analysis of the imaged data will be directed exclusively to
26 the identification and seizure of information within the scope of this warrant. In the course of proper
27 examination, the forensic examiner may view information that is potentially privileged or not within the
28 scope of the warrant. If so, this information will not be made available to the investigating agents unless

1 it appears to the examiner that the information relates to the commission of offenses not covered by this
2 warrant. In that event, the examiner will confer with the investigator and/or the prosecuting attorney
3 so that they can determine whether to seek a further search warrant for the newly uncovered data.

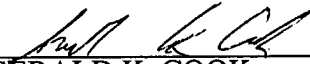

4 67. All seized computers shall be returned to the defendants or the defendant's agent within
5 10 calendar days. If agents need more time than 10 days to complete the mirror imaging, the
6 Government will seek from the Court an extension of time within which to return the applicable devices
7 and/or equipment.

8 **CONCLUSION AND SEALING REQUEST**

9 68. Based on my training and experience, consultation with other special agents and law
10 enforcement officers, and all of the facts and opinions set forth in this affidavit, there is probable cause
11 to believe that federal crimes have been committed, including controlled substances violations under
12 21 U.S.C. §§ 841(a)(1), 843(b), and 846, and money laundering offenses under 18 U.S.C. § 1956.
13 There is also probable cause to believe that property constituting evidence of the offenses, contraband,
14 fruits of crime or things otherwise criminally possessed, and property designed or intended for use or
15 which is or has been used as a means of committing the criminal offenses will be found in the target
16 location described further in Attachment A.

17 69. Because this is an ongoing investigation and premature disclosure of the investigation
18 could endanger agents and officers, cause the target subjects and others to flee and cause destruction of
19 evidence, I request that this affidavit, the application for the search warrant, the search warrant, and all
20 other associated court records be sealed until further court ordered.

21 I declare under penalty of perjury that the foregoing is true and correct.

22
23 
24 GERALD K. COOK
Special Agent
Federal Bureau of Investigation

25 Sworn to and subscribed before me
26 this 5th day of March, 2008.

27 
28 HONORABLE CATHY ANN BENCIVENGO
United States Magistrate Judge
